

**PPR Plastic Fitting Flange**

Besta is a leading China PPR Plastic Fitting Flange manufacturers, suppliers and exporter. PPR flanges are generally used outdoors to connect large pipes, generally used for cold water.

**Product Description**

Besta is a PPR Plastic Fitting Flange manufacture and supplier in China, we have more than 10years experience in water pipe system and we have more than 200sets moulds to produce full range ppr pipe fittings, ball valves, and some other pipe fittings. We have our own mould factory, design products and make OEM products for customer. Besta brand PPR fitting adopts imported raw material RA140E or R200P, and well sell in Africa, Middle east, South America, Asia etc market. PPR flange has two different type, one is PPR material, another with ABS material, both quality are no problem. PPR flanges are generally used outdoors to connect large pipes, generally used for cold water.
